

Information Sessions School of Nursing (BSN) at Texas State University Bachelor of Science in Nursing Degree Program

<http://www.health.txstate.edu/nursing/>

Mission: To prepare students to meet the needs of patient populations in the 21st century and beyond.

Nurses are in great demand throughout the nation, including Texas. As the population ages and nurses retire, this number will only grow larger. If you are considering the BSN program at Texas State, attending one of these sessions is something you will want to do. Lynn Heimerl, MEd, Nursing Admission and Retention Coordinator, will highlight the School of Nursing admission process and answer questions.
